

Goldi Solar Pvt. Ltd. (formerly Goldi Green Technologies Pvt Ltd) is one of the leading solar PV module manufacturing companies. We have increased our manufacturing capacity to 500MW and subsequently we aim to scale it up to 1GW sooner.

We are **ISO 9001:2015, ISO 14001:2015** and **OHSAS 18001:2007** certified.

Goldi Solar is promoted by members of the Dholakia family, who are also founders of the USD 1.2 billion diamond manufacturing conglomerate, SRK Exports.

Our Manufacturing Capabilities

Our modules have undergone all stringent quality tests at reputed third-party laboratories, along with being certified for PID resistance. Besides, we are one of the few companies globally to have 4mm glass certification.

We are also a leading OEM supplier catering to many international brands across the globe and delivering unmatched quality at a competitive price.

Recent change of name from “Goldi Green Technologies Pvt Ltd” to “**Goldi Solar Pvt Ltd**” has enabled the company to consolidate its operations & production.

Best Manufacturing Practices

Our modules are stringently tested for all product reliability factors across various parameters. Besides having a robust and automatic manufacturing line based on Japanese & German technology, we follow best quality, environment and safety practices at our manufacturing process.

We have an Internal Quality circle team, which meets regularly to focus on continuous improvements.

Having adopted the best methodologies in our manufacturing process, we also conduct regular in-house training for our Quality & Production teams.

All these efforts, backed by zero tolerance for any compromise on quality, help us maintain and deliver excellence in our products and manufacturing.

EPC – A natural extension of our expertise

Apart from having a significant & established presence in the solar PV module market as quality manufacturers, Goldi has created significant in-roads in the EPC segment with value-based services and record time completion of projects.

Armed with an in-house team of highly experienced engineers with technical expertise we develop the most cost effective and energy efficient solar power plants. Client satisfaction being on the top of our priority list, our EPC services are the 'best value for money' investment.

Our workforce of 500+ professionals is working 24/7 persistently to deliver highest quality PV Modules within a stipulated time frame.

We are committed to provide the best in quality and we look forward to a fantastic business relationship with you.

Certification

IEC 61701
(Salt Mist Test)

IEC 60068 - 2 - 68
(Sand & Dust Test)

IEC 60904 - 1 & 7
(Calibration)

IEC 62759 - 1
(Transportation Test)

IEC 62804
(PID)

IEC 62716
(Ammonia Test)

IEC 61853 - 1
(Power Rating Standard)

IEC EE CB SCHEME
61215, 61730 - 1 & 2
(Design & Safety Test)
